#355/123, Ashok Vihar, Gurgaon, Haryana

Profile Summary

Dedicated and detail-oriented Front-End Web Designer with a strong foundation in front-end technologies (HTML, CSS, Tailwind CSS, JavaScript, React.JS, Next.JS) and 3+ years of experience building interactive web applications and user-friendly interfaces.

Proven ability to contribute to maintainable codebases at Naskay Technologies. Highly motivated to leverage my skills on a larger development team, tackle complex challenges, and deliver exceptional user experiences through React and Next.JS

Work Experience

React.JS Developer | Naskay Technologies Pvt. Ltd.

Nov 2022 – Present

- Worked on the following two in-house apps while working here.

1. Talentigo

- Led the development and deployment of a full-stack hiring platform, "Talentigo," from inception to beta launch.
- Built using React.JS on the front end and integrated with Firebase for user authentication and database, job postings, and candidate assessments.
- This platform streamlines the hiring process for companies, offering features like candidate profiles, skill evaluations, and interview scheduling.
- Leveraged React.JS and Firebase to build a user-friendly interface with engaging assessments, and data visualization for candidate's assessment results.

2. Quiz app

- Designed and developed a web application companion to an existing Android app, creating a fun and interactive online quiz experience for children.
- Leveraged React.JS and Firebase to build a user-friendly interface with engaging quiz elements, data visualization for results, and seamless integration with the mobile app's backend.

- I also, worked on many other client-side projects while working here, which required UI/frontend improvements, which ultimately led the client app to be more user-friendly and interactive.

Intern Web Developer | Leanvia Pvt. Ltd.

Chandigarh | Feb 2022 - Aug 2022

- Gained experience in front-end development technologies like HTML, CSS, and JavaScript through various project assignments.
- Explored the use of React.JS for interactive web development elements.
- Enhanced problem-solving skills by applying basic Python scripting to specific project tasks.

Skills

- **Languages** - JavaScript (ES6+), HTML 5, CSS 3, Python, Node
- **Frameworks/Libraries** - React.JS, Redux, React Hooks, Next.JS, Bootstrap, Tailwind CSS
- **APIs** - RESTful Services, JSON Web Token
- **Tools** - Git, GitHub, Webpack, Babel
- **Others** - Responsive Web Design, Cross-Browser Compatibility, Debugging, workflows

Projects

Worked on the following projects to improve my frontend, React.JS skills and gain real-world project handling experience.

1. Groovify Music app | React.JS

- Link - <https://groovify.netlify.app/>
- Developed a user-friendly music application using React.JS that allows users to explore and play music. It includes features like search functionality, "Music around" section, top Artist and top Charts section.

2. Crypto-Z | React.JS

- Link - <https://crypto-z.netlify.app/>
- Built a real-time web application using React.JS to display comprehensive details about global cryptocurrencies.

3. Movie-Z | React.JS

- Link - <https://movie-z.netlify.app/>
- Created a dynamic movie search application using React.JS, enabling users to search for movies and view detailed information.

Education

Diploma in Web Design and Development

HARTRON, Panchkula | 2018

- **Focus:** Web Design and Development
- **Project:** Developed a responsive e-commerce website for the final project using HTML5, CSS3, and JavaScript (including best practices for accessibility)
- **Skills Learned:** HTML5, CSS3, Bootstrap, JavaScript (ES6+), PHP, Responsive Web Design, UI/UX Design Principles

Bachelor of Science
